REASONS FOR ALLOWANCE

The request for consideration filed January 23, 2002 has been received and entered into the file.

Applicant's amendments regarding those rejections set forth in paper 7 are convincing. Compounds possessing angiotensin II antagonistic activity, lowering postprandial hyperglycemia in diabetes, indane compounds possessing ACE inhibiting activity, and pyridine compounds possessing HMG-Co A inhibition activity, reside in the prior art. Prior art fails to teach these compounds for treating those vascular maladies herein claimed, thus, concomitant employment of these compounds for the uses herein claimed is neither taught, nor suggested by the prior art. Although some compounds claimed by Applicant, reside in the prior, the prior art use fails to state, or suggest the use herein claimed. An exhaustive literature search failed to produce any reference to the claimed compounds for the use herein claimed.

Any inquiry concerning this communication should be directed to Russell Travers at telephone number (703) 308-4603.
